Re: *Power Integrations, Inc. v. Fairchild Semiconductor International*
USDC-D. Del. – C.A. No. 04-1371 JJF

Dear Judge Farnan:

We write to request the Court's guidance in responding to the 60-page brief containing 19 motions *in limine* filed by Defendant Fairchild (D.I. 356). In addition to being excessive and untimely,¹ the motions improperly seek to reargue several of Fairchild's unsuccessful motions for summary judgment (including motions regarding the validity of the '075 patent and "foreign sales") and the numerous other issues Fairchild has briefed these past few months. (*See, e.g.*, Fairchild motions *in limine* Nos. 1-2 (occupying 19 of the 60 pages), 9, and 18.) In doing so, Fairchild has not even attempted to address the standard for reconsideration, which it cannot meet, and neither the Court nor Power Integrations should be required to address these issues again. Therefore, Power Integrations respectfully requests that the Court strike Fairchild's excessive and duplicative 60-page brief and direct Fairchild to select a small subset of non-duplicative issues on which it intends to proceed. In the meanwhile, Power Integrations requests the Court order it need not respond to Fairchild's motions *in limine* unless and until the Court orders otherwise.

Respectfully,

/s/ William J. Marsden, Jr.

William J. Marsden, Jr.
